Hiring Manager,

National Aeronautics and Space

Administration (NASA).

Subject: Application for Junior Engineer / Research Engineer Position.

Dear Hiring Manager,

I am applying for the Junior Engineer / Research Engineer position at NASA. I have completed my Bachelor's Degree in Computer Engineering from the College of Engineering, Pune and earlier completed my Diploma in Computer Engineering from Government Polytechnic, Nashik, where I ranked first.

During my professional experience as a Junior Engineer at Vinjit Pvt. Ltd., I worked on designing and supporting real-time applications and developed strong analytical and technical problem-solving skills.

My key strengths that would support my success in this position include:

- Experience with engineering tools such as AutoCAD, MATLAB, CATIA, Autodesk, and Simulia
- Strong analytical thinking and problem-solving ability
- Research-oriented mindset and interest in technological innovation
- Ability to work effectively in multidisciplinary teams
- Dedication to continuous learning and excellence

I have also received several achievements including Best B.E. Thesis and first position in a state-level project competition. With my technical background and passion for innovation, I am eager to contribute to NASA's mission of advancing space exploration and scientific discovery.

I can be reached anytime via email at **divyakharde200@gmail.com** or by cell phone **8087779459**.

Thank you very much for your time and consideration. I look forward to hearing from you.

Sincerely,

DIVYA KHARDE

Resume

EDUCATION

B.E Computer Engineering, College of Engineering, Pune
D.E. Computer Engineering, Government Polytechnic, Nashik
Ranked 1st in Polytechnic

WORK EXPERIENCE

- Junior Engineer , Vinjit Pvt. Ltd.
- Responsibilities:
 - Designed and developed real-time software applications
 - Assisted in testing, debugging, and maintaining software systems
 - Collaborated with technical teams to solve engineering problems
 - Supported development and implementation of new technological solutions

RESEARCH AND TECHNICAL EXPERIENCE

Research Intern – Advanced Computing Laboratory
College of Engineering, Pune

- Worked on simulation models and scientific computing applications
- Implemented programming solutions using Python and C++
- Assisted in data analysis and testing algorithms
- Technical Intern – Robotics and Automation Lab
- Participated in development of automated systems using sensors and software control
- Designed algorithms for robotic movement and control systems
- Performed testing and simulation using MATLAB and Simulink

PROJECT EXPERIENCE

Autonomous Robotics Control System

- Designed a robotic control system using embedded programming
- Implemented algorithms for automated navigation and movement
- Conducted simulations and testing to improve system performance
- Software Application Development Project

- Developed applications for real-time problem solving
- Implemented efficient data processing techniques

COMPUTER SKILLS

- **Software:**

AutoCAD, Autodesk, MATLAB, CATIA, Similia

- **Languages:**

C, C++, Java , Python, PHP, Android, JavaScript, HTML

- **Other Skills:**

Data analysis, algorithm development, system design, problem solving.

AWARDS

- Best B.E. thesis - Dept of Computer Engineering College of Engineering, Pune.
- Silver Medalist at the International Mathematical Olympiad.
- First position in project competition at state level in 4th year of B.E.
- Ranked first at district level in 5th standard scholarship examination.
